Dear Willie:

Danny gave me your address, so I am writing you. First of all I want to find out if you are interested in coming back to the states this year. All the boys I have talked to seem to have decided very definitely they want to stay. I think between the war and every thing else they think they will be better off here.

Now if you want to come back, write me right away, so I will know what to plan for the team. We would all like to see you back.

If I do not hear from you in the next week or so, I will know you are not interested in returning. I know of course we have to come to an agreement on terms, but I have to know if you are even thinking about playing with us first.

Everybody in America who wants to work is working, and it looks like it will keep up for a long time. This should mean that the baseball will do very good. Please understand if you men are coming back, I want to at least get some publicity out of it. That means I will have to know what is what before long.

I will be looking to hear from you, just to let me know you received my letter. Notice my new address, 71 Crawford St. Newark. N.J.

Cap sends regards.

Very Truly Yours
